

We have expanded our campground with a row of mobile home spaces.

All properties are equipped with sewage connections, electricity (16A) and winter-proof water connections. A gas ring connection has been laid for each new space in the expansion area, eliminating the need for gas cylinders (obligatory for mobile homes). The outdoor properties vary in total from between 210 and 240 m<sup>2</sup>.

## Price List 2007:

Getaways in the green:

The campground is located at the municipal recreation area "Haard" - the Ruhr District's 'Greenway' (the Gate to Münsterland) - and it provides the ideal conditions for a variety of sporting and leisure activities, for instance with its Nordic Walking Park, hikes, cycling tours, 130km of bridle paths, rollerblade paths, the 'Industriekultur-Route' ... Unspoiled nature - right at our front door. And for those seeking peace and quiet, you'll find it right here.

All 175 *long-term caravan sites* are equipped with electricity, sewage facilities, winter-proof water and lots of storage space, plus telephone and gas connections. The 30 *short-term caravan sites* offer space facilities for travel vehicles and caravan rigs plus electricity connection (13A), water and sewage.

#### Haard-Camping \* Camping and Weekend Park

This camping facility and its surroundings provide an idyllic setting for families, also with children, seeking peace and tranquility. The family business, open year-round, has been in operation for over 30 years. Featuring a stream running through its midst, this campground is integrated in a natural manner as part of the landscape into this magnificent, forested setting.

The annual in-house-organised Camping and Children's Festival takes place at the end of the summer school holidays.

#### Long-Term Camping Spaces:

All long-term camping spaces (around 175) are spacious, fully enclosed and equipped with connections for electricity, sewage, winter-proof water, and several also provide telephone and fixed gas connections.

Mobile homes up to 40m<sup>2</sup> plus 10m<sup>2</sup> covered terrace, extended garden tents and tool sheds up to 5m<sup>2</sup> can be accommodated.

The camping spaces vary from between 135 and 300m<sup>2</sup>.

Additional charges according to meter readings.

#### Short-Term Camping Facilities:

These short-term camping places (around 30) for brief camping stays provide parking locations for travel vehicles and rigs at two different areas in front of the barrier (sunny or shady) with electricity, water and sewage connections.

A disposal station for travel vehicles is also on hand.

The sanitation building naturally provides facilities for laundering and drying, as well as for emptying chemical toilets.

#### Playground and Petting Pen

Children and young persons will feel right at home: There's a play hut, a football area, basketball goal, swings, monkey bars, sandbox, slide, ping-pong table and outdoor tabletop football. And the adjacent forest, equipped with a playground, is also available for small adventures!

Plus we have 2 downhill go-karts and a small petting pen with 2 ponies, 2 goats and 1 sheep.

We prefer a midday breaktime from 1:00 p.m. to 3:00 p.m. at the campground and in particular at the playground to allow all the guests the peace and quiet they need!

#### Weber's Haard Oasis"

Our excursion locale, with its garden terrace and shop featuring homemade cake and a family-friendly atmosphere, awaits you in the Reception Area of the campground. On cooler days you can listen to the crackling of the fireplace and enjoy the comforting warmth of the heated floor. Exhibitions by local artists and craftspersons decorate the interior, while the little ones can enjoy our cosy playground. We are dog-friendly and can additionally set you up with riding opportunities for the horse-lovers in your group.

#### Wellness and Refined Gastronomy

The Jammertal country hotel, located nearby, offers beauty programs, refined cuisine, a swimming & sauna oasis and sporting facilities. Guests are confronted with almost too many choices: A year-round heated outdoor swimming pool, whirlpool, a solé pool, Finnish block house sauna, Roman tile sauna, steam-bio sauna, bionouvelle - comprehensive cosmetics programs, sea algae therapy, Cleopatra pool-for-two, a massage practice with natural therapies, outdoor tennis on artificial grass and golf. And the Katenkreuz Restaurant has something delicious for every taste!

#### The Canal City of Datteln

This city has 37,000 residents and is Europe's largest canal junction, featuring the Datteln-Hamm Canal, Wesel-Datteln Canal, Rhein-Herne Canal and the Dortmund-Ems Canal. The Canal Festival takes place every summer with a variety of attractions and events.

Forests and canals - two prominent items to check off the holiday list. Here they provide a network for hiking and cycling in and around Datteln. The weekly Market is held on Wednesdays and Saturdays opposite the Bus Station.

#### "Die Haard" / Hohe Mark

Local recreation area, "Die Haard", with its sophisticated path network, is located right at our door, making it the ideal starting point and destination for active campers interested in hiking, bicycle and mountainbike tours and horseback riding expeditions. "Die Haard" boasts a far-reaching riding path network of some 130 km, diverse signposted hiking paths and 3 accessible 30 - 40 m high fire watchtowers with an exquisite view of the surrounding nature.

And a new feature is the Nordic Walking Park, with 7 easy and medium routes, covering altogether over 50km.

Unique tourism opportunities in the 'Ruhrgebiet': Gasometer, blast furnaces, cooling towers, coking plants or mines are filled today with new life and exciting ideas. The 'Industriekultur Route' leads through a region where there's not just plenty to see, but also much to discover.

Datteln's canal banks and Haltern's man-made lake offer a wealth of activity opportunities for cyclists, hikers, anglers, boat lovers, etc...

There are 4 sign-posted theme routes: The Roman Route, The Ruhr Circuit, The 100-Castles Route and the Emscher Park Path.

#### ECO-Camping Environmental Concept:

Satisfied guests, an intact environment and lasting success - this is important to us. Environmental and natural conservation, safety and quality at our campground are things we want to constantly improve to contribute our part to safeguarding the necessary requirements for living today and for generations to come. Compliance with environmental laws and regulations is a matter of course for us.
